Yeah, I know it's weird, but here's the connection: The 10th Annual Bad Does Good, Toy Run & Car Show is on June 29, 2019, from 8 am to 12:30 pm at Children's Hospital Colorado, Parking lot 10, at 13123 E 16th Ave, Aurora, CO 80045. The show is sponsored by the Corvette Club to benefit the Children's Hospital Treasure Chest. I don't know why it's called "Bad does Good", but you should come and find out. *See the article elsewhere in the Odometer.*

We have a speaker for the June meeting. He is Nigel Zeid from Boulder Nissan. Come and hear Nigel talk about the car business, the electric Nissan Leaf and any other subject that comes up. *See the article elsewhere in the Odometer.*

On a very serious note, a Z owner from California contacted me about an unsavory and difficult situation he has found himself in. He had contracted with an allegedly reputable Z restorer in Gardena, CA to do work on his 240Z. It had its original engine when it went in but did not when he got it back. This was not part of the deal. He learned that a person named Robert Kropp, from Colorado, took the original engine, put it in his own car and made for Colorado. The gentleman who called me told me that a lot of legal actions have either been started or are still being investigated by the District Attorney, cont. pg. 3

against the Z restorer. He called wanting to know if Robert Kropp was a member of our club, he is not, or if I had heard of him and knew of any way to know his whereabouts. I've never heard of him so I am reaching out to the club to see if any of you have any knowledge of this person. If you do, please contact me directly.

Now for something that happens with some regularity around here at this time of year. ZCCC is looking for new members for the Board of Directors of ZCCC. In the past, pursuant to the Constitution, I have appointed committees to find new Board members but each has failed completely and miserably in their directed duties. As a side note, I remember who you are but have yet to figure out how to gain some advantage by virtue of that knowledge.

Here's the poop: Both the President and Vice-president are term limited to two consecutive one year terms and cannot serve in those offices again in the next term. Originally, or at least when I started with the club 20+ years ago, the President's and Vice-president's terms overlapped, presuming each served two consecutive one year terms, so there was some continuity in the leadership of the Board when a new Pres or VP took their seat on the Board. That doesn't mean the other Board members are not leaders. They are in every sense of the word and I am grateful for their support and assistance in the more than capable way that they serve this club. The overlap was messed up prior to my second two year term as Pres by the unconstitutional third term actions of you know who. So, in an effort to try and rectify this situation, the Board is proposing that either the new President or new VP serve only 1 year in that position and someone else take the position in October 2020.

So, here is the pitch: We need a new President and VP as well as a new Public Relations Officer. At this time, I am unaware of any other position on the Board being vacated but that could change. However, Don Gordon the present VP has expressed an interest in taking the PR Officer position being vacated by Mike Goddard. Be aware, that any member in good standing, that means you haven't been a major putz and have paid your dues, can run for any office during this and all successive elections. You can run against an incumbent or a new nominee. It has happened on occasion. Actually, it's how I first got on the Board back in 1999-2000.

Again, so, who is going to step up to the plate??, to serve our club and get all those extra perks that come with a Board position. Perks, what perks? I'll see if I can think of any before the next meeting. At present, the Board meetings are held by conference call at 6:00 pm the day before the first Wednesday monthly, meeting which is usually the first Tuesday of the month. If elected, your participation in the Board meetings and the monthly meeting is highly desirable and really helps with moving the club forward and addressing the business of the club. Just to get the ball rolling, I nominate Tammy Sanders for the position of President, and, this would keep the dynasty intact. The problem with this however, is that we would have to find a new editor for the Odometer, and to find someone as good at it as Tammy would be harder to do than finding a new President.

I'm presuming that Scott Swiger, our webmaster will be staying on as well as our Social Media Director, Tiffany Gordon. Their services are indispensable and I would hate to lose them. Cont. pg 4

President's Corner Continued

On another serious note, Tammy recently received an email from Gail Hamilton who was the speaker at the March 6 club meeting. If you were there you will recall she is the over achieving blind person who doesn't let anything stop her from accomplishing what she wants. The following is part of the email that Gail sent and she is seeking help from all of us to publicize and be aware of the problems with allowing us and our dogs to interact with a Seeing Eye dog:

"I had to retire my spectacular fifth Seeing Eye dog on April 28, 2019, after only being with him for six months; which breaks my heart. Sarge was the best dog I've had in over twenty years! On my way to church that morning, a woman allowed her dog to come into contact with my dog in the middle of Downing street and 13th avenue in Denver, Colorado. She said, "it's okay." However, she had no idea that her actions had such devastating results which forever changed his and my life. Sarge couldn't resist the temptation of that barking dog inches away from his face and they got into a brawl. Since my life was in his paws my safety was at risk. Unfortunately, he had to return to the Seeing Eye in Morristown, New Jersey on May 9th, and I'll never walk the streets, pet his soft ears, or play Kong with him again. After his puppy family is asked if they would like to own Sarge as a pet, I'm hoping they won't and he will have a career change and become a drug-sniffing police dog. The field representative says Sarge would be fabulous at that job since he is obsessed with playing ball 24/7. I'm still crying over the loss of him and haven't heard the final update to his status yet.

Thanks in advance for assisting me in educating others on guide dog distractions and how to insure a successful working partnership. How people behave around a Seeing Eye dog is different from a family pet or any other service animal. Unknowingly, their actions can have life or death consequences and can change lives forever-underline/destroy or bolster/create. It's a class 3 misdemeanor to distract a Seeing Eye dog in any fashion! This includes when approaching a Seeing Eye dog, don't interact or speak to the Seeing Eye dog or its owner. Don't pet, feed, or look into the Seeing Eye's dog's eyes. And under any conditions, don't allow any dog to distract or come into physical contact with a working Seeing Eye dog. All dog owners need to keep their dog(s) tight by their side, especially when crossing streets.

Help me bring light to this invisible issue and insure independence and safety for all guide dog partnerships. I'd appreciate any personal or professional contacts you can pass my way in order to get the word out for creating change in how owners of dogs interact with a Seeing Eye dog.

Thanks for your assistance..." Gail

Gail Hamilton
Soaring Into Greatness

I for one was not aware of this issue/problem and had no idea that such an ignorant though innocent action could have such serious effects. Those of us who have dogs have to be aware of this and make our friends and family who have dogs aware of this also.

Well, that's it for June and I hope to see you at the monthly meeting on June 5, 2019.

The board requests everyone attending the ZCCC general meetings to please order off the menu. It is OK to share a meal.

Guest Speaker for June: Boulder Nissan Nigel Zeid

Our speaker for the June meeting is Nigel Zeid, the electric vehicle guru at Boulder Nissan. I've known Nigel for a number of years and I find him quite knowledgeable about many aspects of the car business and certainly electric vehicles and obviously, the Nissan Leaf. Here is a little biographical information on Nigel:

Nigel has been at Boulder Nissan since 2007. He's originally from London, and moved to LA in 1996 where he taught animation for 10 years. He met his lovely wife Karen in LA (she's a New Yorker). They married in 2002 and adopted their first daughter, Olivia, from China in 2003. They had decided to adopt their second daughter, Chloe, but wanted to move out of LA before doing so. They came to Boulder without knowing anyone, but saw that it was a great place to live and raise their children. When he's not at work, he's at home with his family and trying to reduce the size of his "honey-do" list.

I know that Nigel is quite entertaining so come to the June meeting to gain some knowledge about the car business and our sponsor, Boulder Nissan.

50/50 Raffle to be held Outdoors at June 5th General Meeting!

Finally it has warmed up and we are hoping to have the 50/50 Raffle outside in the Overland Golf Course Parking Lot (weather permitting). We are going to go back to a time when we used to enjoy going outside after the meeting and chat alongside everyone's Z cars. And as an incentive, you will get an extra raffle ticket if you bring your Z car.

The gifts during this first outdoor raffle are sure to be extra special.
Hope you can make it!!!

10th Annual Bad Does Good, Toy Run & Car Show

When: June 29, 2019 8am— 12:30pm
Where: Children's Hospital Colorado, Parking Lot 10
Host: Ira Sanders
Cost: New Toy Donation

The 10th Annual Bad Does Good, Toy Run & Car Show will be held on June 29, 2019, from 8 am to 12:30 pm at Children's Hospital Colorado, Parking lot 10, at 13123 E 16th Ave, Aurora, CO 80045. The show is sponsored by the Corvette Club to benefit the Children's Hospital Treasure Chest.

Those of us who went last year had a very good time. The entry fee is to bring toys for the kids who are undergoing treatment at Children's Hospital Colorado. Last year we had quite a few toys to contribute but I would like to top that this year. It's for this show that Tammy bought all those Mickey, Minnie and Goofy's and has been selling them at the monthly meetings at the same price she paid for them with her discount at Kohl's. Each one is \$2.68. Tammy will bring some to the next meeting. You get to decorate your car with them and then later in the morning, we grab wagons and carts and take them to the hospital for the kids. Before that however, the kids are brought out by nurses and attendants, many in wheel chairs, to see the cars and judge them. I'm sure that the cars with the most stuffed toys on them get lots of consideration for an award. We will need to coordinate a place to meet before we go in so that we can all park together. Last year I think we chose a Taco Bell to meet at but that didn't work out so well. I'll find some place better. Here's the link to the event: <https://www.facebook.com/events/2014963592153057/> for more details.

If you have any questions email me or call.
I would like a count of the people going so let me know.

Car Ralley Fall 2019:

Help Needed: We have the Ralley instructions put on by some of our members a few years back. Looking for volunteers to get together and start the planning process, modify the instruction and working with Gail Hamilton and Trina (teacher of the Blind/Visually Impaired and Certified Orientation & Mobility Specialists) and the Lion's club to put together a joint car rally between ZCCC and visually impaired kids. With some minor changes to the instruction to accommodate these kids reading the instructions via brail to the driver it should be a fun time for all. At the end would be food, drinks and awards. This is in its beginning stages of organizing. Please help by volunteering to put this event on.

Car Show: American Legion Post 2018

The American Legion Car Show was held at Heather Gardens in Aurora on Saturday, May 18th. Unfortunately, the turn out was light due to threatening weather. However, there were still some interesting cars there including the 1968 Charger and the 1977 MGB shown. Me and Jason Spegal were the only ZCCC members in attendance. Although the show was small, it was still entertaining.

Do You Know the Definition of a Working Dog?

Excerpts gathered from a variety of sources on line

"You have probably heard the terms *service dog* and *assistance dog* before, but do you know what these terms truly mean? Generally speaking, a service dog or assistance dog is a working dog specially trained to help a person or group of people with a disability or specific needs. However, there is a bit more to the definition of a service dog, especially in the eyes of the law. A service dog is a type of working dog but is very different from other [working dogs](#) like police dogs and search-and-rescue dogs. "

Service Animal:

"According to the [Americans with Disabilities Act](#), "service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities." The dog must not be a pet, but be specially trained to assist the handler with something directly related to his or her disability. Emotional support dogs are *not* considered service animals. In addition, [therapy dogs](#) are not considered service dogs in the eyes of the law."

Therapy Animals:

"Animal-assisted therapy (AAT) is the use of certified therapy animals as part of a therapeutic plan. [Pet Partners](#), once known as the Delta Society, has described animal-assisted therapy as a "significant part of treatment for many people physically, socially, emotionally or cognitively challenged."

Patients in hospitals or nursing homes -- especially children and the elderly -- often benefit from AAT. While animals such as horses and cats can make [excellent therapy animals](#), dogs are by far the most common type, tapping into the unique [bond](#) canines and humans share."

The Rule for Service Dogs: Don't Touch or Distract Them

<https://healthypets.mercola.com/sites/healthypets/archive/2016/01/23/behavior-around-service-dog-team.aspx>

By Dr. Becker

If you're crazy about dogs, you've probably found it difficult to "mind your manners" in the presence of [service animals](#). I know I have. These dogs are so beautiful and carry themselves with such quiet dignity that they're nearly irresistible.

But resist we must.

Whether the dog is in service or in training to serve, the rule of thumb is: don't touch or distract him. This is because interacting with a dog that is working or training could put the other half of his team — his owner — in harm's way.

It could also interfere with the dog's focus and inhibit his ability to pick up commands.

Puppies destined to be service dogs begin training on the day they're born, and it takes a minimum of two years before they're ready to work full-time. Training is customized for each dog. Essentially, the dogs choose their jobs based on their specific skill sets.

In case you're not sure of proper etiquette when you encounter a working dog, the following are some do's and don'ts for behavior around a service dog team (dog and owner).

8 Dos and Don'ts for Behavior Around a Service Dog Team

1. **DO** speak to the owner/handler rather than the dog.

The service dog and her handler are a team. If you want to talk to them, always speak to the person first rather than automatically approaching the dog. Remember, the animal is working, and her human's life could depend on her staying focused on her job.

2. **DON'T** touch the dog without asking permission first.

Touching or petting a working dog is a distraction and may prevent him from tending to his human partner. The dog may be in the process of completing a command or direction given by his human, and you don't want to interfere.

Fortunately, most service dogs are trained to stay in work mode until they receive a release command from their handler. That's why many service dogs are able to ignore outside influences.

3. **DO** keep your own dog a distance away from a working dog

If you happen to have your dog with you when you encounter a service dog team, don't allow your pet to approach them without first talking with the handler to see if it's permissible.

Other animals are an obvious distraction to working dogs, and in a worst-case scenario, there could be an altercation between the two animals.

EXTRA

4. **DON'T** offer food to a service dog

According to Canine Companions for Independence, "Food is the ultimate distraction to the working dog and can jeopardize the working assistance dog team."¹

Not only are food and treats a potential distraction, but many service dogs are fed a specific diet and often on a specific schedule.

5. **DO** treat the owner/handler with sensitivity and respect

Asking a service dog's handler personal questions about his or her disability is out of bounds. It's disrespectful and an intrusion of privacy.

Assume the service dog team can handle things themselves. If you sense they could use your help, ask first. And don't take it personally if your offer is rejected, as there's usually a good reason.

6. **DON'T** assume a napping service dog is off duty

All dogs nap, including working dogs. When her handler is sitting or standing for some length of time, it's perfectly natural and appropriate for a service dog to catch a few winks. She's still technically at work, however, so all dos and don'ts remain in effect.

7. **DO** inform the handler if a service dog approaches you

If a working dog approaches you, sniffs or nudges you, etc., politely let the handler know. Resist the urge to respond to the dog — the handler will correct the dog.

8. **DON'T** assume service dogs never get to 'just be dogs'

[Working dogs typically get plenty of R&R and playtime](#). When they're home and out of their "work clothes," they're free to behave like any other dog. Since the jobs these wonderful animals do are often challenging and stressful, their handlers recognize they need plenty of downtime and exercise.
