THE PREZ POST

BY CHERYL MCKENNEY

Happy Valentines Day! This is the month that we celebrate love. I hope you are all celebrating the love you have for your cars! Our Z's are always ready for an adventure. They are ready to be shined up and shown off. They are ready to take us to the grocery store or to visit friends. They are ready to hit the open road and show us what they can do. Our Z's take us on adventures and back home safely. So celebrate the love you feel for your Z this month.

February is also the time I like to reevaluate my New Year's resolutions. One of my resolutions was to increase the involvement in the club. In the news letter you will find information on events that the hosts can use help with running their events. We are currently looking for help with the Concours d'Elegance, the Autocross and the annual banquet. The article has more in depth information, so please check it out.

I am also looking for ways to increase attendance at the general meetings. The last few meetings members have presented products or discussed an issue that they were having with their vehicle. Members then asked questions and offered insight into how the problem or issue could be resolved. It has been extremely enjoyable seeing the knowledge and passion members have for their vehicles and their willingness to help others. I hope to continue this at not only the online meetings but also the in person meetings.

Increasing attendance at events is another piece of the involvement in the club. Showing support for the organizations that support us is an important aspect of the health of the club. The support that they provide to the club help pay for the monthly drawings, active member gifts and some events. What better way to show our support than to show off our cars!

Lastly, I again wanted to thank the board for all of their hard work and dedication! With them anything is possible! So, other than that I have nothing to report.

LETTER FROM YOUR EDITOR

BROUGHT TO YOU BY THE LETTER “V”

From the Editor

“V” is for Valentines Day. Please give your Z a big hug

Happy February! We are still in the middle of winter and experiencing subzero temperatures. Remember to take care of your vehicles as well as your pipes in your home. Baby is on a battery tender currently so she will start up so she can attend our next event. Also, keep your pets indoors as much as possible. Give them a hug too.

Nate and I hope you all attend the The Man Cave tour on Saturday, February 24, 2024 at 10:00 AM and our Crock Potluck on Saturday, March 23, 2024 at 6:00 PM. Last year it was a huge success and the dishes were amazing.

I look forward to seeing you on Zoom for our upcoming general meetings

Electric Carbon Widebody Datsun Z With 400 HP Looks To The Future

BY [CALLUM MACHUGH](#)

This stunning SEMA EV build is one of the wildest restomod projects out there.

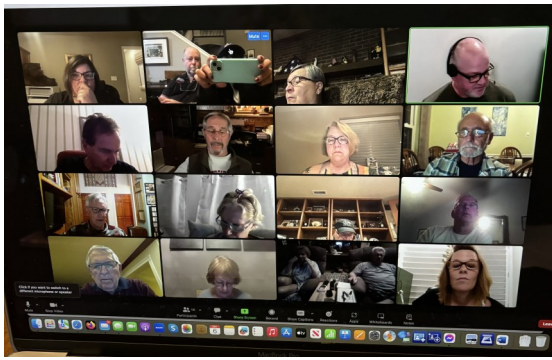

KEY TAKEAWAYS

- The annual SEMA show in Las Vegas showcases innovative classic car project builds, and this year, there's a focus on incorporating EV technology.
- The carbon Nissan/Datsun 280Z combines retro sports car styling with modern technology, resulting in a truly unique vehicle.
- The car was designed by Carlos Pecino and Ash Thorp of Make Haste Corp, and built by Tim Hicks over 6 months using 3D printing and carbon fiber panels.
- It is powered by two Chevy bolt battery packs and a Tesla Model S large drive unit.

2024 Nissan Z: What's New

MotorTrend Staff

Nissan introduced the latest in its line of Z sports cars for the 2023 model year and has now debuted a high-performance NISMO variant for 2024. Offered with a 3.0-liter, twin-turbocharged V-6 engine mated exclusively with a nine-speed automatic transmission, the Nissan Z NISMO cranks out 420 hp and 384 lb-ft of torque. Those figures represent an improvement of 20 hp and 34 lb-ft of torque over the standard model.

Other NISMO-specific upgrades include model-specific bodywork and styling, beefier brakes, a retuned suspension setup, a more rigid body, and grippier tires. Inside, there's a steering wheel with leather and Alcantara trim, complemented by red switchgear and special digital display graphics as well as Recaro seats embellished with NISMO logos. Additionally, all NISMO models receive built-in Amazon Alexa connectivity, a feature shared with the Nissan Z Performance trim as of the 2024 model year.

2024 Nissan Z: Pros and Cons

Pros

- Indulgent retro styling
 - A potent twin-turbo V-6
- Touring- car comfort

Cons

- No manual for NISMO models
 - Competitors feel more nimble
- Limited-slip differential only available on higher trims

Please click the link below for a more in-depth description and evaluation of the 2024 NISMO Z:

1970-1972 Nissan Fairlady Z 432 +48%

Article submitted by Andy Mortenson

Most car enthusiasts know the Datsun 240Z, but far fewer know the Nissan Fairlady Z 432. That lack of awareness hasn't hindered values, though. The car surged in price by 48 percent to close the year, and one in excellent condition now costs a hair below \$300,000.

The Z 432 is a performance variant of the original Z car produced for the Japanese domestic market and features a close-ratio five-speed transmission, dual exhaust, a limited-slip rear differential, and a sportier suspension. Most importantly, though, it is powered by the same four-valve, three-carb, dual-overhead cam S20 engine that propelled the legendary Prince R380, Japan's first purpose-built prototype racer (see image below). The 432 is exceedingly rare, too, with only around 420 built.

Given their rarity and the devotion of their owners, these cars change hands infrequently, but an excellent example found a new owner at Mecum's Monterey auction last August for \$297,000. This public benchmark is consistent with reported private sales activity for perfect cars soaring above \$400,000. Furthermore, the Nissan "Hakosuka" Skyline 2000GT-R also had a strong quarter, with their price guide values increasing by 13 percent. This is proof that JDM fans are as interested in the older back catalog as they are in more modern models.
