NATE'Z NOTEZ

Happy New Year ZCCC family. Hope your holidays were wonderful and your New Year is off to a great start. For those of you that joined our Zoom meeting in December, it was nice to see your faces. We did have a few in-person events during the month that are re-capped in this month's Odometer.

On the 10th, we welcomed our Z family and guests to our house for our annual Z Holiday party hosted by Cheryle and Chloe (and yours truly). You can read the re-cap and view pictures on page 14.

The McKenney's once again hosted their holiday lights drive on the 17th. You can read about it and view the pictures on page 15.

Robert Eagan (Bert-O-Matic) hosted a toy drive in conjunction with the VQ Club for Childrens Hospital on Sunday the 18th, and the re-cap and pictures for this event are on page 16.

I am writing this article on the 21st as Cheryle and I will be heading to L.A. for the last few days of Chanukah and Christmas with our son, daughter-in-law and grandson. We are also going to the Rams/Broncos game at SoFi Stadium on Christmas day. We will be back in Colorado on the 27th. Too late to write this so we hope to see you all next year, (January 4th, at 7:00 PM).

Until then, Happy holiday's to all, and "keep the rubber side down, and the shiny side up". Best
regardz, Nate

Great time but bad loss!

MEET YOUR MEMBER

RICK AND DEBBIE MRAZ

I believe I may have joined in 2005. We have always liked the "Z" car. In the late '70s and '80s, I had friends who owned 240Zs, 280Zs, and 280ZXs. A good friend had an original Scarab – Blue-Print, Balanced, Ported, 327 V8 Conversion from California. Corvette eater! Each time I had an opportunity to buy a Z, timing, family, and my constant moving in the Air Force didn't allow me to make the purchase.

So, I looked in earnest in 1997-1998 for a Z car worth the price and effort to maintain. Luckily, my grandfather was a mechanic, and I grew up working on cars. I finally found my Z car in 1998 in Virginia Beach, VA: 1972 240Z in Lime! I am the third owner. The car was originally from San Diego, CA.

The previous owner had a new motor installed in the mid-90's (260Z block), new struts, and transmission rework. Mechanically, the car was a keeper. The rest of the car needed a lot of TLC. So, I started my renovations in 1998 and worked at it a little at a time. Here's the short list of my repairs: New Floor Pans, Re-dyed vinyl, New Jute and Carpet, Removed old A/C system, Removed the smog system (only needed in CA), New Front Brakes, New Rear Brakes, Upgraded to the 280zx Distributor and Alternator, Upgraded headlight and marker light wiring, New Exhaust, Z Therapy SU Carb refresh, New Seat Foam and covers, Polyurethane Bushings, Repainted lots of trim and interior parts, Konig 16" Wheels, Replaced Rear Strut Pins, and New Transmission Mounts. My next effort will be paint and body work. I plan on a complete tear-down. The car has been painted at least four times. It has more rust to repair (Hatch, Fenders, Rocker Panels, Wheel Arches). The "yellow" hides the imperfections well.

In 2003, I bought a 1982 280ZX for my late-wife, Mary. Silver, non-turbo, T-top. The car was 20 years old and only had 60,000 miles on the odometer. I bought the car from Todd Wagner (Tidewater Z). He is also on the ZCON board. He refurbished the car and won a People's Choice Award at ZCON in 2001 or 2002. The car was Mary's daily driver. It did well in the snow with a set of four snow tires, too! I did some work such as Polyurethane Bushing upgrades, New Exhaust Manifold and Gasket, Minor Fuel Injection fixes, Fuel Pump, and New Carpet.

We sold the car in 2012 when we became grandparents. It seems grandma's 2-seat sports car doesn't work with little kids!

Continued on Page 11

Debbie is also a Z car fan. In 1986, as an Air Force Lieutenant, she bought a new 300ZX (non-turbo). White with burgundy Interior, and the Digital Dash.

This was her daily driver in Texas, California, Washington DC, and Germany. Debbie loved taking it on the Autobahn. Debbie's parents became furious over the digital dash failure while helping drive the car from California to Washington DC. No speedo, No gas gauge...nothing. A junk yard part got it fixed. She sold the 300ZX in 2001 before returning stateside from Germany. Now, Debbie has her sights set on the new 2023 Nissan Z in Blue.

Debbie and I plan on attending more Z Car Club events in the future. We like to do drives and car shows such as the Concourse D'Elegance. Let me know if anyone would like to talk about Zs or how to fix them.

WE WOULD LIKE TO FEATURE YOU AS OUR MEMBER OF THE MONTH.

What type of vehicle you own (can be more than one). Add pictures please.

2023 Bull Market Pick: 2003–08 Nissan 350Z

[Steven Cole Smith](#)

07 December 2022

Submission by Andy Mortenson

<https://www.hagerty.com/media/market-trends/2023-bull-market-pick-2003-08-nissan-350z-nismo/>

Welcome back to the Hagerty Bull Market List, our annual deep dive into the collector cars (and bikes) climbing the value ranks. This vehicle is one of 11 chosen for the 2023 installment of the List. To see the other 10, [click here](#).

Performance-wise, 1996 began seven long years of darkness for Nissan. The fast, pretty 300ZX had ended its production, and there wasn't much in Nissan's U.S. portfolio to interest the power-hungry. The wait was on for the next Z, and briefly, it seemed as though Nissan had minimal interest in a meaningful revival of its most heralded model. It took until 2002 for Nissan to introduce the 2003 350Z, and it was deserving of the name. Rave reviews followed. *Automobile* magazine named it Automobile of the Year, and *Car and Driver* named it to its 10Best, calling it "a re-creation of the segment-busting Datsun 240Z that set the sports-car world on its ear in 1970." Segment-busting or not, sales were strong, especially after a roadster version debuted for 2004. The coupe was offered with a complicated roster of Base, Enthusiast, Performance, Touring, and Track versions, while the roadster came only in Enthusiast and Touring.

Power came from a 287-hp version of the versatile VQ35DE 3.5-liter V-6, and manual and automatic transmissions were offered. The so-called Rev Up engine with upgraded internals and a bump to 300 horsepower appeared in the 2005 Track model, and in 2007, it was boosted to 306 horsepower for all models.

Nissan was back on the performance radar, but it wasn't until late in the 2007 model year that the company really cashed in on America's fascination with NISMO, the name of Nissan's performance tuning division in Japan. The golden child of the 350Z lineup, the 2007–08 Nissan 350Z NISMO. Steve Ellis of Los Angeles was living in Texas when he found his 2008 Nissan 350Z NISMO in San Antonio. With 130,000 miles, "It was in pretty rough shape, but it had a clean title, and like all of us, it just needed some love and attention." The NISMO Z was an excellent track-day car from the factory, but Ellis added bigger tires and wheels, refreshed the suspension with solid bushings and an adjustable linkage, and gave it "a little more aggressive alignment that helps on track days."

The nearly trouble-free car has since had plenty of track days, autocrosses, and just plain driving—all of which has added more than 70,000 fresh miles to the odometer. "My main takeaway was astonishment at just how solid it felt, even with the incredible 204,000 miles on the clock. The rest of us had similar reactions," says Joe DeMatio, senior content manager.

Whether you choose a Base 350 or a NISMO variant, it's hard to go wrong with one of these Zs. "They're just good, solid cars," Ellis says, 350Z NISMO is by far the most valuable model today.

WHERE IN THE WORLD IS Z CAR CLUB OF COLORADO?

WE CAUGHT YOU DISPLAYING YOUR ZCCC MEMORABILIA

We thought it would be fun if you took a picture wearing or displaying something with the ZCCC logo. The photo could be taken at a special scenic place in beautiful Colorado, in another state or during an international trip. Perhaps at one of our events or even dining out.

If you travel somewhere or just relax locally and would like to share your photos displaying the ZCCC logo, just send the photos and description to Cheryle Derman at editor@zccc.org.

Bruce and Cheryle McKenney were spotted wearing their 2022 active member shirts. Looks like they made some new friends. They are in Disney Springs, Orlando, Florida. Gail Mund and Jason Spegal were at the Annual Holiday Party. Jason Spegal is showing off his 2022 shirt and his White Elephant gift. Gail was captured chatting about her 2022 shirt and 2019 thermos with James Pasono.

ANNUAL HOLIDAY PARTY AND GIFT EXCHANGE RECAP

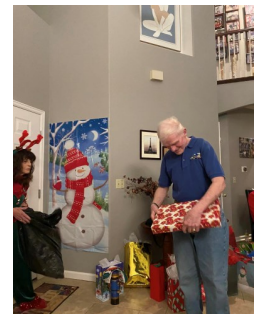

DECEMBER 10, 2022

BY CHERYLE DERMAN

'IT WAS ONE OF THE BEST PARTIES YET'

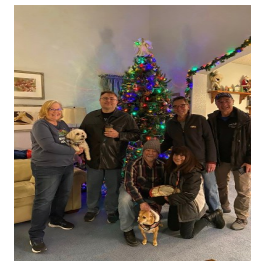

The food was sumptuous and the alcohol was flowing. We even had a homemade brew by the Rhynes. Nate made homemade Paella and of course, Kathy's egg are always a must have. All of the 28 guests enjoyed getting together in person to celebrate the holidays. Nate and I managed to infiltrate some Channukah décor with 3 menorahs and festive lights. We had our own "Elf On The Stairs". The White Elephant gift exchange got exceptionally "brutal" this year with several gifts being "locked" and a few people were picked on. All in all, I think everyone was happy with their gifts. Thank you everyone who attended. We always enjoy having all of you to our home. Merry Christmas, Happy Channukah and of course, a very happy 2023. Cheryle, Nate and Chloe.

Cheryl asked, "Is that an elf?"

HOLIDAY LIGHTS TOUR RECAP
Saturday December 17, 2022
BY BRUCE AND CHERYL McKENNEY

We had another year of festive lights and holiday cheer! The holiday lights tour was on December 17th. We started the evening with a happy hour at our home. Rudolph greeted everyone and guided their sleigh for parking. We snacked on many delicious appetizers and treats and enjoyed some great company. We then departed our home for the light tour. The trip around the area included several stops where we saw Santa, reindeer, many furry friends and even a few movie stars. There were also lots of beautiful lighted trees and even some giant snowflakes. One of the houses flashed along with holiday music and we were greeted by Santa passing out candy and cocoa at one stop. After viewing lights in the neighborhood, we headed to Arapahoe County Fairgrounds for the drive thru light show. After a bit of a wait, we headed into the show and saw thousands of synchronized lights. We drove through tunnels and arches and by many lighted displays. The show was worth the wait and was the grand finale of our evening. For videos and photos please view our Holiday Lights Album on our Facebook Page at <https://www.facebook.com/media/set/?set=a.453837940288918&type=3>

Tint World of Aurora is this month's featured vendor. Store owner Ray Ruiz and his team can transform your vehicle from ho-hum to WOW. Tint World offers a variety of services and products. Enjoy the rich sound of upgraded speakers or a new sound system (they did this on my 2003 350Z). Don't forget about safety. Tint World can install park assist cameras, blind spot detection system warning, car remote start and security systems. Headlight restoration, another service offered, is an important component of safety on the road. Paint correction can remove oxidation and paint swirls (they did this as well). Paintless dent repair is another service available (I used that too). There is a full line of window tinting, paint protection wraps and more. Tint World – Aurora can customize your car for a unique look to make it your ride. Their website address is: www.tintworld.com/locations/co/aurora/107. Be sure to call the store at 720-388-6677 and ask for Ray to discuss your car's needs and member discount details.

Ray Ruiz is a new ZCCC Business Member as well.
